Your pet is welcome in Patapsco Valley State Park, but only in undeveloped portions of the park. Maps of some of these areas are listed in this brochure.

Pets are prohibited in the developed areas for several reasons. Many people do not clean up after their pets. Some people do not like the noise pets create. Wildlife can also harm pets through rabies or an attack.

Pets must be leashed at all times while in the undeveloped areas. Leashes may not exceed ten feet in length. This regulation is to protect the park visitor and the animal. Unleashed animals can cause injury to themselves or other pets, wildlife, and park visitors. Many animals which are allowed to run free become lost in the unfamiliar surroundings of the park, or chase wildlife, which is a serious offense. This can happen to even the most well trained animal.

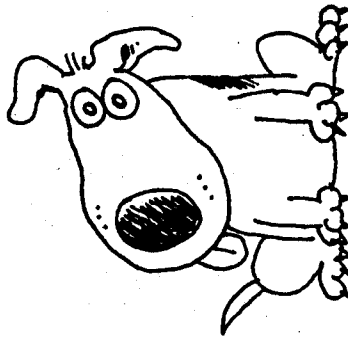

Patapsco's Hollofield Campground has a special loop just for campers and their pets. These sites do not have electric hook-ups and are separated from the main campground.

Seeing-eye and other certified guide dogs are permitted throughout the park.

Other State Forests and Parks have both day use and campground areas where pets are permitted. Please check with the individual forest or park before visiting.

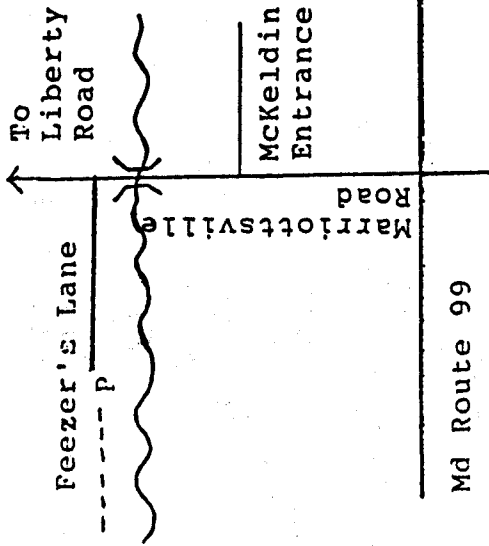

It is your responsibility to have the necessary skills, knowledge, and equipment for a safe and environmentally sensitive visit.
